

Dear Parent/Carer

ARRANGMENTS FOR RETURNING TO SCHOOL

Can I first thank you for all your hard work, help, support and patience through what has been an extremely challenging period.

We are looking forward to seeing our Year 12 students before the end of term. We understand however that parents and students may be anxious about the risks that returning poses. We also appreciate that some families may have pre-existing health conditions that may prevent students from returning.

Year 12 have been allocated the Friday of each week and will be taught in option subjects. We would ask that they wear school uniform and that this is washed before they return the following week. I have included a timetable on the reverse page of this letter which explains what subjects will be delivered and when. There are two sessions on 3rd and 10th July and one on the 17th July. Lessons will run from 9.30am – 12.00pm and 12.30pm- 3.00pm. There will be no movement during these sessions and students will take a break within the allocated classroom. For those subjects which are split over the two sites, please note where these are being delivered. We would ask that when students arrive they report to the main entrance and will then be directed to the relevant classroom.

We also want Year 12 to start considering possible career paths over the coming months. All Year 12 students will be given a UCAS guide. I would ask that those who intend to apply to university register with UCAS over the coming weeks and start completing their basic details. It is important that they link their application to school using the buzzword **Whitmorehigh21**. Furthermore, it is vital that they complete a draft of a personal statement by September. Advice on this is contained in the UCAS guide.

There is some Welsh Baccalaureate work that needs to be completed. This includes their employability work from last term and they also need to make a start on their Individual Project by completing the project guide which will be distributed on their return. Students will find some very useful guidance issued through Aberystwyth and Bath University and the details are available using the following link:

<https://www.futurelearn.com/courses/welshbacc>

The next few weeks could prove to be a very beneficial period for Year 12 students. We would like to assure you that every effort has been taken to ensure that the school is a safe environment for both students and staff.

If you do have any concerns or queries please do not hesitate to contact me.

Yours sincerely,

Mr R Bourton
Leader of Learning, Key Stage 5
