

Year 8 Summer Term Art Project: “Identity”

What is “Identity”?

- **Identity** is a term to describe the unique individual characteristics of a person.
- It may be a reflection of our culture combined with inner experience and outer circumstances

Identity is shaped by many different factors. When trying to work out what makes “you” unique, you might want to consider the following areas which can all contribute to your identity:

Nationality - where you were born & where you live, family, friendships, age, gender, culture, race, religion, likes, dislikes, strengths, weaknesses, appearance, memories, beliefs, choices made, how you see yourself, how others see you, social identity, possessions, food, clothes, habits, hobbies, interests, behaviour, experiences, language, holidays, school, favourite subjects.

Task 1: to be completed by Fri 5th June.

Considering the information from the previous slide, create an illustrated spider diagram to depicting your own identity.

- You can use your 'own name' or 'my identity' or 'me' as your title.
- Refer to the following examples of spider diagrams over the next few slides to inspire you.
- Cover as many aspects of your identity as possible.
- Make your spider diagram look as eye catching and imaginative as you can.
- In order to complete this to the best of your ability this task should take you at least one hour!!!
